### **7 June 2020 - UPDATED INFORMATION FOR PARENTS OF OUR PLAYERS.**

We hope all our players and their families have been safe and well during these crazy couple of months. This email is quite long winded however is being sent to give you an update on the developments of getting a COVID safe 2020 rugby league season back up and running. With the government's announcement of the Roadmap to Recover and the staged easing of restrictions we are excited to see plans finally being put in place to get community sport back up and running.

As with everything in life at the moment the return to the "old normal" is no longer possible. In order for our kids to get back out on the footy field we have had to devise a COVID safe plan for the Return to Play in accordance with the government's proposed 3 staged easing of restrictions as well as adhering to any directives handed down by QRL and Rugby League Brisbane.

There has been various information released over the last week over revised restrictions limits for Stage 2 through a number of social media platforms, not all of these give the full information required for community sport to begin training. There are number of conditions in place for clubs to commence training and also for future competitions. Please be aware that until it is confirmed by this club, training has not and will not be starting. We need to ensure we have the appropriate procedures and policies in place prior to any plans being made for training, and the ability of the club to hold games. The first of these steps are being undertaken by doing a clean and disinfecting all the buildings and equipments at the club.

Thank you for your patience so far and over the coming weeks, we will be finalising our protocols in regards to COVID-19 and the ability to train and use our venue in conjunction with QRL and QLD government legislation. Once everything is in place we will call a Coaches meeting to ensure they are aware of all the procedures, at this time new training schedules and protocols etc will be issued. This is going to be a massive effort from all involved and will require co-operation from all our members.

RESOURCES - <https://www.qrl.com.au/return-to-play/game-training-day-operations/>

You can access the RETURN TO PLAY HANDBOOK for your own information, and other information the club is required to adhere to.

The guidelines and procedures are being developed to support the return of community rugby league and prioritise the health and well being of all our players and the general safety of the wider community. They are be designed in consultation with QRL as well as community rugby league stakeholders with the understanding that they are necessary to enable the return of community rugby league in 2020. These procedures are being reviewed on a regular basis and updated.

Below is a list of the Stage 2 procedures our club will be implementing:-

1. If your child is not registered on the database and fully financial with the club they cannot train.
2. If your child is unwell with any types of symptoms, they **MUST NOT** attend training. Your child should not return to training until at least 24 hours after they have ceased to display any types of symptoms. We also ask that if a member of your household is sick with any cold or flu like symptoms that you keep your child at home until all household members are well. The club reserves the right to refuse entry to the grounds for anyone not obeying these rules;
3. Your coach/team manager will be keeping a written record of attendance for each training session and such record will be kept for a period of at least 28 days (this will be referred to in the case of an outbreak).
4. Minimum parents will be permitted to remain on ground during the training session. We are still in the planning process but would only allow a parent for Under 6 to Under 9 (if numbers permit) Parents will be expected to drop off and pick up their children from the designated place. This information will be available in the near future.
5. The club will be adopting the AIS training schedule focus of **“Get in, train and Get Out”**. This module of training focus is as follows:
  - (a) Players are expected to turn up to training on time, be clean, toileted and fully dressed ready to train;
  - (b) Players are to go directly to their designated training area and remain in that area with their own player group at all times during the training session(unless they need to go to the toilet);
  - (c) Training will take place and then the players are again required to immediately leave training following the most direct route to their pickup area and head home with as little contact with others as possible.
6. Due to social distancing and hygiene protocols we ask that all children bring the following packed in a small bag to every training session:
  - (a) Water bottle.
  - (b) Protective equipment e.g. mouth guard/ headgear etc.
  - (c) Small bottle of hand sanitizer (coaches will access to hand sanitizer for those do not bring theirs).
7. All players and coaches will be required to hand sanitise before and after every training session.

loganbro@bigpond.net.au

8. Training will consist of non-contact activities ONLY. Under no circumstances is there to be any player on player tackling/wrestling/contact. All children will be required to keep a 1.5m distance between each other wherever possible.
  
9. All training equipment such as balls, kicking tees, markers etc. will be cleaned by the coach after every training session and possibly even during some training sessions dependent on the type of activity. Please remind your child that they should not handle any equipment unless under the direct instruction of their coach.
  
10. Training Times:
  - (a) Given social distancing and capping of numbers per training session the club will only allow 1 age group per venue per training session.
  - (b) A Training Roster will be prepared noting each age groups allocation of training day, time, field, drop off/pick up zones.
  - (c) U6 to U12 will only be allocated 1 training day per week, U13 and up we are hoping to allocate 2 days per week. Training days and times will be posted on your teams Facebook page in the coming weeks.

We just ask you continue being patient as we work our way through implementing these new procedures and setting up the new policies. The success of starting training and playing games in 2020 will depend on co-operation by all.

Regards
